PROFESSIONAL SUMMARY

Dedicated Full Stack Developer and QA Specialist with 2+ years of commercial and project experience across modern frontend and backend architectures (Next.js, React, Node.js, PHP, Laravel) and automated test pipelines (Playwright, Jest, Postman). Adept at building modular, high-performance web applications and ensuring zero-regression stability through rigorous quality assurance. Collaborative team player experienced in fast-paced, remote, and agile agency environments.

TECHNICAL SKILLS

Frontend Development: React.js, Next.js 14, JavaScript (ES6+), TypeScript, Tailwind CSS, HTML5, CSS3, Bootstrap, jQuery

Backend Development: Node.js, Express.js, PHP, Laravel, RESTful APIs, WebSockets, MySQL, MongoDB Atlas, Supabase

Quality Assurance & Testing: Automated End-to-End Testing (Playwright), Jest, Postman API Testing, Manual Regression QA, Bug Triage

DevOps & Tools: Git, GitHub, VS Code, Docker, XAMPP, Vercel, Netlify, Render, Cloud Run, Figma, Canva

PROFESSIONAL EXPERIENCE

Web Developer & Website QA Tester – Code Creative Agency — Dec 2025 – Present | Karachi, Pakistan

- Develop, maintain, and optimize modular web applications utilizing PHP, Laravel, JavaScript, and Tailwind CSS.
- Conduct end-to-end Quality Assurance (QA) testing on web platforms to identify, document, and resolve critical bugs prior to production deployment.
- Execute complex third-party API integrations, including MYOB accounting/invoicing software and payment flows.
- Build and customize dynamic CMS structures and Shopify collection page templates for client brands (e.g., The Petal).
- Participate in daily agile sprints and collaborate with cross-functional engineering teams to ensure on-time delivery.

Independent Full Stack Developer & QA – Commercial & Client Solutions — 2024 – Present | Karachi, Pakistan

- Architected and shipped production web applications, including DropBeam (real-time Wi-Fi file sharing) and InstaPDF (client-side PDF document studio).
- Developed high-efficiency image compression pipelines (PNG to WebP Converter) reducing asset sizes by up to 80%.
- Engineered responsive, accessible UI components with automated test coverage ensuring cross-browser stability.
